SUMMARY

I am a motivated second year computer science student with a passion for technology and a drive for continuous learning, I am excited to apply my skills and knowledge to contribute to innovative projects. With a solid foundation in computer science principles and experience gained through coursework and other activities, I am excited to use my abilities to make meaningful contributions.

EDUCATION

Informatics Institute of Technology, affiliated with University of Westminster, Central London, United Kingdom) 2023 - 2027

BSc(Hons) Computer Science

First year modules

- Computer System Fundamentals
- Mathematics for Computing
- Software Development I
- Trends in Computer Science
- Software Development II
- Web Design and Development

Second year modules

- Software Development Group Project
- Object Oriented Programming
- Database Systems
- Client Server Architectures
- Advanced Client-Side Development
- Server-Side Web Development

Maliyadeva College

2009-2022

- Advanced Level: 1C & 2Ss.
- Ordinary Level: 8As & 1B.

PROJECTS

InnovaStruct

- An construction application built to streamline the construction process by connecting clients with construction companies. Developed to enhance efficiency and project management for construction businesses and individuals.
- Technologies - Spring boot, React, MongoDB

Event ticket management system

- A fullstack application which simulates the process of vendors releasing tickets and customers retrieving them.
- Technologies - Spring boot, React

LandFinder

- A real estate website that let users view and filter a list of properties by different requirements and with add to favourites functions
- Technologies - React

Portfolio website

- A portfolio application built to showcase skills, projects, and experiences
- Technologies - React, TailwindCSS

FRED

- An educational website
- Technologies - HTML, CSS, Javascript

Student marks calculator

- An application that evaluates student performance based on credit input and categorizes the outcome
- Technologies - Python

SKILLS

Technical skills

- **Languages:** HTML, CSS, Java, Python, Javascript, SQL, PHP
- **Libraries and Frameworks:** React, Springboot, TailwindCSS, Laravel, Node.js
- **Tools:** VScode, IntelliJ, Git/Github, MySQL Workbech, XAMPP, Figma, MongoDB, Canva

Soft skills

- Teamwork
- Self Learning
- Problem solving
- Critical thinking

Languages

- English
- Sinhala

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- Python Essential Training
- Java Object-Oriented Programming
- Postman API Fundamentals Student Expert
- GenAI 101 with Pieces

Achievements

- Hult Prize 2024-2025 OnCampus Program (Competitor)
